

The Rubin Observatory Legacy Survey of Space and Time (LSST) Active Galactic Nuclei Science Collaboration (AGN SC) Charter: Supplementary Document

Version information: v2.0 adopted August 2019, revised May 2020, revised August 2021

This document defines specific details of the charter governing the Rubin Observatory Legacy Survey of Space and Time (LSST) AGN Science Collaboration (hereafter “the AGN SC”). These details can be changed without requiring the members to acknowledge the changes with a signature, although members should be modified of any change.

- Each member must have 1 primary subgroup affiliation and can have up to 3 secondary subgroup affiliations, for a maximum of 4 affiliations within the AGN SC.
- It is expected that AGN SC conference calls typically happen on a monthly basis, alternating between two different days of the week and times to facilitate attendance in different time zones.
- The time frame for approving new membership applications and changes of application from and to full and associate is *two weeks*.
- The time frame for approving full/core membership application is *one month*.
- Current (May 2020) active subgroups within the AGN SC:
 - AGN Selection/Classification
 - Photo-z/Redshift estimates
 - AGN Variability Science
 - Follow-up
- A change in leadership for each subgroup is recommended on a time scale of a few years, but the details of the Subgroup Coordinator transition and the exact time scale are left to each subgroup to decide. If a member wishes to see changes in the structure of the subgroup they are encouraged to discuss these with the coordinator first, and if issues cannot be resolved within the subgroup to reach out to the AGN SC Co-Chairs.

- **Data Rights:**

Currently international communities are engaging in the process of proposing and developing “in kind” contributions in order to acquire LSST data rights. It will be the policy of the AGN SC to treat existing members as provisionally having data rights until such a time as the in-kind contribution process has

been finalized and a reasonable period for establishing in kind contributions has passed.
